

ACQUA
APPIA

100% PURITY

FROM ANCIENT ROME, A QUALITY WATER

A SOURCE OF HISTORY AND WELL-BEING

The source of **Acqua Appia** is symbol of healthiness and tradition. Used by the Romans, since the fourth century BC, today the **Acqua Appia** is, once again, a valuable resource for those seeking quality and safety.

The Appia Fountain is a mineral water source located in the “**Appia Antica**” Regional Park in Rome. It’s water, known for its **therapeutic properties and effervescent taste**, has been appreciated since ancient times. The source is in an area of great historical and archeological value: it is a place to visit to discover a suggestive corner of ancient Rome.

Drinking **Acqua Appia** is like drinking **Giulio Cesare’s** water: **Acqua Appia** is the water that made great the **Roman Empire**.
